SOUTH EDGE

The South Edge is on the borderline of the old residential areas and the newer developments, where the wall, once wrapped around the old city of Ahmedabad, is now a void. This site, once a dense residential area and the busy road, is now a buffer zone between the dense residential area and the busy road. I chose to develop an arts center for youth who are interested in developing their own knowledge in the making of art.
SPACES OF YOUNG WOMEN
- Inward in semi-private and semi-public spaces, usually where there are no men present.

SPACES OF YOUNG MEN
- Inward in public spaces, on their way to school, when walking in squares.
