

# Errata – Future Nordic Diets: Exploring ways for sustainably feeding the Nordics.

TN2017:566

16.01 2017

## Error in Table 7. Correction below

**Table 7. Compounds included in the eutrophication assessment, the activities associated with their emission, and their respective generic EP factor.**

Assessed compound	Associated activities	EP <sup>a</sup> (kg PO <sub>4</sub> <sup>3-</sup> e/kg)
Nitrogen (N)	Leaching of nitrogen from agricultural soils.	0.42
Phosphorus (P)	Leaching of phosphorus from agricultural soils.	3.06
Nitrogen oxides (NO <sub>x</sub> )	Emissions from combustion of bio- and fossil fuels.	0.13
Ammonia (NH <sub>3</sub> )	Emissions from manure management and application, crop residues and biogas production.	0.35
