

Errata

Page 24, lines 8-10: “Nineteen proteinogenic amino acids (all except cysteine) were detected in both species” should be replaced by “Nineteen common proteinogenic amino acids (all except cysteine) were detected in the nectar of *B. orientalis* and all twenty common proteinogenic amino acids were detected in the nectar of *A. petiolata*”.

Page 25, figure 8: The chromatogram does not show the detection of cysteine (measured as cystine) in *A. petiolata*. The spectrum shown does not correspond to tryptophan. The figure should be replaced by this one:

Page 28, line 11 in paragraph 3: “(+)-syn-” should be replaced by “(+)-syn”.

Page 29, line 1 in paragraph 1: “(-)-anti-BPDE” should be replaced by “(-)-anti-BPDE”.

Page 29, second paragraph: the full stop at the end of the paragraph is misplaced.

Paper II,

page 2, line 1 in paragraph 2: “plants and and possible mechanisms” should be replaced by “plants and possible mechanisms”.

Paper III,

page 5, line 2 in paragraph 3: “LC-MSMS” should be replaced by “LC/ESI-MS/MS”.

page 29, line 3 in paragraph 1: “Standards were prepared individually by weighing the corresponding amounts of nineteen essential amino acids” should be replaced by “Standards were prepared individually by weighing the corresponding amounts of twenty common proteinogenic amino acids”.

Paper IV,

page 3, Sample preparation, line 15: “35 min” should be replaced by “25 min”.
