Errata- Imaging and treatment outcome of potentially curable prostate cancer

Page 15: The third paragraph, second sentence should start with; In Sweden, PCa is the leading cause of cancer related death, followed by lung cancer and colorectal cancer deaths. But, on the other hand, the mortality rate for PCa has been stable since 1970 with 2424 deaths in 2009.

Page 47: Table 10 should be replaced by table at paper III page 3
Page 49: Table 12 and in Paper IV page 3 table 2 these 2 columns should be replaced.

<table>
<thead>
<tr>
<th>CNB Volume mm³</th>
<th>85.1 (71.9 -107.2)</th>
<th>100.6 (95.1-106)</th>
<th>97 (72.1-117.2)</th>
</tr>
</thead>
<tbody>
<tr>
<td>CNB Vol part of P</td>
<td>1/510</td>
<td>1/410</td>
<td>1/490</td>
</tr>
</tbody>
</table>

Page 57: Biopsies targeted by ultrasound detect 60-70% of cancers of the prostate.

Page 59: Figure 8 should be replaced with figure 9.

Page 68: The initial ultrasound-guided biopsy result is positive in 66-71% of cases. However, the positive detection rate at second biopsy is 81-83%.

Paper IV page 2: First column under the title "Schematic mapping" and "Statistics" figure 1 should be replaced with figure 2.

Paper IV, page 4: Right column, second paragraph, second sentence should be read; In order to avoid treatment-related risks and to achieve effective cancer control in men with PCa, location and extend of spread should be identified.

Paper IV, page 5: the last paragraph before conclusion in the 7th row: the word "partaking" should be replaced with "participating".
