TEDxKTH Power of Perspectives
TEDxKTH is over for this time and we would like to thank all of you who attended. We sincerely hope you had a great time and left with a couple of new perspectives to think about. Videos from the event will be uploaded shortly. Big thanks also to our sponsors!

Claes Hultling
Claes Hultling is a medical doctor specialized in neurology and rehabilitation medicine. He is also an associate professor at the Karolinska Institute and visiting professor at the Stanford University in California. He has lived 29 years with a complete spinal cord injury that left him paralyzed from his shoulders down. Claes works with spinal cord injured men and women and one of his prime goals is to get them back into life. He recently started a spinal cord injury unit in Gaborone in Botswana and one in Windhoek in Namibia in order to help people with special needs and help them back into the society. He will present a story of how he was able to get back to his life after his spinal cord injury.

Amen Rassam
Amen Rassam is Associate Professor at the division of Proteomics and Nanobiotechnology at KTH Royal Institute of Technology, where he leads the Clinical Microfluidics Lab (CyF Lab). His research is on nanotechnology and microfluidics for biological applications with emphasis on point of care diagnostics. He will be presenting the first “Lab-on-DVD system specifically designed to meet the needs in resource limited settings, first demonstrated through CD4 count for HIV diagnostics.

Armin Tavakoli
Armin Tavakoli is a second year student of physics. He has conducted research in both experimental and theoretical physics at Stockholm University and Institute of Phonomic Science in Barcelona, mostly on quantum game theory and quantum foundations. Armin’s research has been awarded with e.g. first place in Swedish national youth science fair, second place at the International Science and Engineering fair in the field of physics and astronomy and also a medal from Yale University.

Terrence Brown
Dr. Terrence E. Brown is Associate Professor of Entrepreneurship and Innovation with a PhD in Entrepreneurship and Corporate Strategy and an MBA in Organizational Management and International Business from Rutgers University. His research area is – Value creation through the formation, management, rapid growth and rejuvenation of business enterprises. Dr. Brown is also the founder of Copernication, an offline/online institution providing content and education to entrepreneurs and venture investors.
